**Subject:** AFP/AAC against VAC office closure

I would like to assure you that there will be no reduction in service to local Veterans and our Veterans will continue to receive services and home visits from Veterans Affairs staff. We will also continue to ensure that we have the right people in the right locations to assist our Veterans and their families.

Since 2006, we have made significant investments to ensure our Veterans have the care and support they need. Our government made a commitment to maintain benefits for Veterans and we have fulfilled that commitment through significant enhancements to the New Veterans Charter, through doubling the amount of Operational Stress Injury clinics and by creating the Office of the Veterans Ombudsman. We will continue to ensure that our commitment to maintain benefits for our Veterans is upheld and we will also continue to ensure that improving the quality of life of Canadian Veterans will remain a priority.

Again, thank you for your email. I can assure you once again that our Government will continue to ensure our nation's heroes receive the best possible care.

Please accept my best wishes.

Sincerely,
