PARTICIPATE IN RESEARCH AND LET YOUR VOICE BE HEARD

The purpose of this research is to characterize and begin to explain the social dimensions of the financial wellbeing of survivors of Veterans who entered marriage/common-law relationships with Veterans aged 60+. We anticipate that this study will form the basis for future work to evaluate existing family support strategies for survivors of Veterans, and to support the design of improved strategies. This study also aims to investigate the pattern of Veterans' second career paths following military service, and their financial well-being before and after retirement. We are anticipated to conduct around 30 in-depth semi-directed interviews which are designed to address specific questions while permitting the provision of additional unsolicited information and perspectives supplied by participants.

THE UNIVERSITY
OF BRITISH COLUMBIA

If you are interested in sharing your experience and engaging in discussions about the social context of Canadian Veterans, please consider participating.

You are eligible to participate if you meet the following criteria:

- ✓ Participants must be survivors of Veterans who entered marriage/common-law relationships with Veterans aged 60+. The age limit only applies to the Veteran, the age of the participants could be below 60.
- ✓ Participants must have the capacity to understand the study procedure and consent form

Participation and compensation: You will take part in one interview, which will last approximately 1 hour at the University of British Columbia – Okanagan campus, private rooms in community centres or library, or at participant’s office or home. Participants chose whether they would prefer an interview over the phone or a face-to-face interview. After the interviews each participant will receive a \$100 gift card to compensate for their time.

Post comments: If you or someone you know may be interested in participating, please send this poster through private message or email. Please do not post or share this poster in places that will affect your or someone else’s ability to remain anonymous.

Research team:
